Detailed Evaluation Score for DUR FY 2023-24

In the Distribution utility Ranking Report for FY 2023-24, annexures have been provided for DISCOM wise score and ranking for all the 6 parameters separately. The annexures provided in the report are:

- **Annexure-A:** Score in 13th Annual Integrated Rating & Ranking of Power Distribution Utilities
- **Annexure-B:** Score in CSRD report for FY 2023-24
- **Annexure-C:** Score in RPO achievement for DUR
- **Annexure-D:** Score in Communicable System metering for DUR
- **Annexure-E:** Score in Demand Side Response for DUR
- **Annexure-F:** Score in Resource Adequacy for DUR

Further, to understand the detailed breakup of score in individual parameter at sub-parameter level, this Detailed Evaluation score document have below tables for 4 exclusive parameters for DUR FY 2023-24:

- **Table 1:** Sub-parameter level score in “**RPO achievement**” for DUR
- **Table 2:** Sub-parameter level score in “**Communicable System metering**” for DUR
- **Table 3:** Sub-parameter level score in in “**Demand Side Response**” for DUR
- **Table 4:** Sub-parameter level score in “**Resource Adequacy**” for DUR

Detailed breakup of score in IR and CSRD report can be accessed from below:

- **13th IR Report** - <https://pfcindia.com/ensite/Home/VS/25>
- **CSRD Report for FY 2023-24** - <https://recindia.nic.in/uploads/files/co-usri-crsd-report-fy-23-24-dt240225.pdf>

This document will help DISCOMs/PDs and other stakeholders to assess DISCOM's performance for these parameters at granular level.

Table 1: Sub-parameter level score in RPO Achievement for DUR

Marking criteria is as below:

S. No.	Sub-parameter	Max Score	Marking methodology
1	Applicability of ToD tariff as per rules	50	
i	Is ToD applicable for all categories of C&I consumers having maximum demand of 10kW and above (Yes/No)	30	If answer is Yes - Max marks, else 0 (score provided for each C&I consumer category – in case of multiple C&I categories, average score considered)
ii	Is Peak period tariff for above categories at least 1.2 times the normal tariff? (Yes/No)	10	
iii	Is Solar hrs tariff for above categories at least 20% less than the normal tariff? (Yes/No)	10	
2	% of consumers with ToD meters installed (In % w.r.t. Total consumers for which ToD is applicable)	50	(No. of C&I consumers having ToD meter installed / No. of C&I consumers for which ToD is applicable) * 50

Marking methodology for above sub-parameters are as tabled below:

S. No.	Sub-parameter	Max Score	Marking methodology
1	Preparation of RA Plan	50	
i	Is RA plan prepared? (Yes/No)	25	If answer is Yes- Max marks, else 0
ii	Is contracting plan for coincidence peak contribution and to meet energy and peak demand prepared by DISCOM/ PD? (Yes/No)	15	
iii	Is contracting plan approved by SERC/ JERC? (Yes/No)	10	
2	Arrangement as per RA plan (Arrangement% as per contracting plan as on 31.03.2024)	50	Arrangement % * 50 (for each generating source - Score for this sub-parameter is Average of score for all generating sources)
